

Application Form

for UK Business Reply, International
Business Reply, and Freepost services

Introduction

Our Business Reply and Freepost Services are designed to enable you to gain responses, whether from the UK or throughout the world. They have a straightforward business-like image which adds credibility to the look of communications, plus you only incur postage costs for the responses received making these more cost-effective services than supplying respondents with stamps.

To use this service, all your reply envelopes or cards must be pre-printed to a specified design (see the Technical Notes document for details). If you want to promote a reply-paid service using TV, radio, the press or web, use the Freepost Services.

Separate licenses are necessary for UK (including IOM & CI) and all other addresses, and a charge is payable for each. If you have any questions, please contact Customer Services on **01624 664664** or **customer.services@iompost.com**.
